OBJECTIVE

Computer Science graduate with a strong foundation in Python, databases, and software development principles, backed by hands-on project experience in application development, data analysis, and machine learning. Quick learner with strong analytical and problem-solving skills, seeking to contribute to a dynamic team and grow into a well-rounded technology professional.

SKILLS

Programming Language: Python

Web Technologies: HTML, CSS, Bootstrap

Database: MySQL, Database Management System (DBMS)

Software Development: Data Structures, Object-Oriented Programming (OOP), Software Development Life Cycle (SDLC)

Platforms: Visual Studio Code, Jupyter Notebook, Google Colab, GitHub

Soft Skills: Problem Solving, Quick Learner, Team Player, Analytical Thinking, Effective Communication

EDUCATION

JNTUK University College of Engineering Narasaraopet 2022 – 2026

Bachelor of Technology (B.Tech), Computer Science and Engineering (CSE) | CGPA: 8.29/10

Sri Chaitanya Junior College 2020 – 2022

Intermediate | Percentage: 96.9%

Tiny Tots High School 2019 – 2020

Secondary School | Percentage: 100%

PROJECTS

Credit Card Fraud Detection

- Developed a fraud detection model on imbalanced transaction data using Logistic Regression, Decision Tree, and Random Forest algorithms with SMOTE oversampling; achieved 99.98% accuracy and 100% recall using Random Forest.

Technologies: Python, Pandas, NumPy, Matplotlib, Seaborn, imblearn, Scikit-learn

AI-Powered Recipe Recommendation System

- Built an AI-powered system using Python that extracts ingredients from grocery receipts via PaddleOCR and recommends recipes using SBERT-based semantic matching with a hybrid scoring model, reducing food waste.

Technologies: Python, Flask, SBERT, PaddleOCR, SQLite, spaCy, inflect, RapidFuzz

Student Data Management System

- Designed and implemented a desktop application using Python (Tkinter) and MySQL featuring complete CRUD operations, search filters, and Excel export via Pandas. Applied input validation, duplicate record checks, and debugging techniques to ensure data integrity and streamline administrative workflows.

Technologies: Python, MySQL, Pandas, Tkinter

CERTIFICATIONS

- Fundamentals of Artificial Intelligence – IBM Skills Build
- Python (Programming Language) – GUVI | HCL
- Structured Query Language (SQL) – Skill Up
- Oracle Certified AI Foundations Associate – Oracle

LEADERSHIP AND ACTIVITIES

- Class Representative, JNTUK UCEN – Facilitated communication between students and faculty to promote collaboration and class cohesion.
- Volunteer, Mystery Quiz Event – CySEntia 2K24 technical symposium with 500+ participants, hosted by UCEN, JNTUK.
